

The site plan illustrates the layout of the proposed 10-unit residential development. It features ten distinct building footprints, each with a small square icon representing a unit. The buildings are arranged around a central landscaped area containing a curved path and several trees. A parking area with five designated spaces is located near the center. The site is bordered by a street on the left and a driveway on the right. Landscaping is indicated by green circles representing trees and green lines representing shrubs or grass. A north arrow is located in the upper right corner of the plan.
